

The Rowans Play Area

Drawing given to potential suppliers

Quote required for the following:

1. Metal fence with self-shutting gate along frontage of area approved to child safety standards.
2. New rubbish bin to replace existing bin.
3. Refurbish the existing see-saw
4. Refurbish the exiting swing and replace one seat with an 'inclusive' type seat.
5. Replace existing playhouse with a new all-inclusive type activity centre with climbing opportunities and a small slide.
6. Install a climbing net up the side of the hill. Needs a 'hot pour' base under the net.
7. Install a small fort with some extra walls on the top of the hill.
8. Remove existing bark and install a new surface which needs to be a combination of rubber mulch/hot pour in the appropriate places. Equipment could be linked with a resin type path. The finished surface must allow easy access for wheelchair users, baby buggies, prams and those with walking difficulties. No trip hazards.
9. [note: removed bark could be spread around the cleared area shown on the drawing]
